**3** *REPLICATION OF THE MODEL*

Taluka-by-Taluka and District-by-District Transformation of the Country

# Main Activities

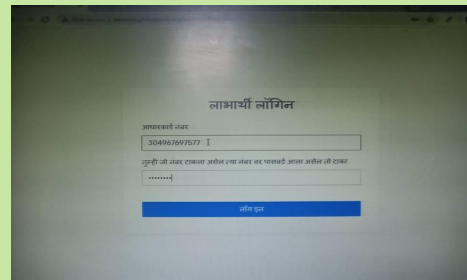

Papaya Farmers' Training

Staff Training

Website Development

Collector Meeting

# On - Field Training Session

Under 30L Fruit Tree Plantation, Global Parli has completed more around 95% of its targeted papaya plantation. Training, especially on-field training is very important for farmers to enhance their plantation techniques and learn modern agricultural methods that enhance productivity.

An On Field Training Session was arranged for farmers at Penurkar Nursery in Solapur. Around 80 Famers were present during the training session.

Experienced agronomist Manoj Shah explained the importance of intercropping along with techniques of fruit plantation. Farmers visited pepper and tomatoes farms to understand the economy of intercropping and how it can aid in supplementing their incomes.

# Raisen Collector Meeting

Global Parli team met Collector Umashankar Bhargav, district Raisen, Madhya Pradesh, to discuss implementation strategies for our plantation target in Raisen.

Collector Raisen has been excited about the project and offered full support by his department in the project implementation phase in Raisen.

# Website Development

The image displays three screenshots of a web application interface, likely for farmer registration and data collection. The top screenshot shows a form titled "सेवा केंद्र आयडी: 1" and "नाव: किसान माणिक उगले". Below this, there is a section "आठ अ बरील माहिती" with fields for "जिल्हा" (District), "तालिका" (Taluka), "उपजिल्हा" (Sub-district), "पिन कोड" (PIN Code) (7517779115), "पुस्तक" (Book), "Open", "उपजिल्हा" (Sub-district), "पुस्तक" (Book), and "सिद्धांत" (Principle). The middle screenshot shows a "किसान पत्र" (Farmer Card) section with a "पिन कोड" (PIN Code) field, a "पिन कोड" (PIN Code) field, and a "पिन कोड" (PIN Code) field. The right side of the middle screenshot shows a summary of the registration details, including "पिन कोड: 7517779115", "उपजिल्हा: 01", "पुस्तक: 01", and "सिद्धांत: 01". The bottom screenshot shows a "फॉर्म" (Form) section with three "पुस्तक" (Book) fields, each with a "Browse" button. The fields contain the path "C:\fakpath\IMG-20191224-WA0007.jpg".

With expansion of our activities into more than 4000 villages in Marathwada and Raisen, we have moved towards greater automation in our operations. The first step has been to develop an e-commerce like portal for farmer registrations and data collection.

For this, we have revamped our website which will now serve as a portal that accepts farmer registrations for fruit tree plantation and also exports the said data for future uses such as farm monitoring activities.

This automation will not only make it easy for our operations team to monitor registration-related activities such as cash flow, sapling distribution and plantation monitoring easy, but also make the whole registration process transparent and accessible for our farmers.

# Training of Trainers

Global Parli believes in enhancing the knowledge of trainers and team members, by arranging the following training sessions in early March:

1. Fruit Research Centre, Aurangabad
  - Mr. M.B Patil explained fruit economy of Mango, Lemon, Sweet Lemon and Orange.
  - M.B Patil explained each minute points on planting, growing, and harvesting citrus fruits in details, which help us in mobilization.
2. Bavaskar Technology
  - Ramesh Borange highlighted new techniques that can be adopted for papaya and drumstick cultivation.

### 3. Training Session with Dr. Navnath Malhari Kaspate.

- Dr. Kaspate, a research oriented farmer from Gormale village in Barshi, Solapur has received a patent for his NMK-1 Golden variety of Custard Apple.
- He explained the monetary benefits of planting the NMK-1 variety of custard apples citing his own example of making more than rupees one crore a year from 35 acre plantation of custard apples. According to him, plantation of 340 saplings of NMK-1 Golden variety on one acre of land can earn farmers upto 5 lakh rupees after two years.
- To counter the menace of fake NMK-1 saplings floating in the market, he has set up the Madhuban Farm and Nursery which sells saplings to other nurseries or directly to farmers.
- Global Parli has decided to tie-up with Dr. Kaspate's nursery to procure NMK-1 Golden custard apple saplings for our farmers.
