Tokyo 23 August 2019

Meghraj Capital's Chairman, Binoy R.V. Meghraj, was invited to speak at a seminar in Tokyo hosted by the Japan Institute for Overseas Investment, Japan Bank for International Cooperation and UNIDO.

The topic of his presentation was Partnering with Kenya Companies to Access East Africa. Binoy spoke at length to a large audience of guests from Japanese companies. The seminar proved a good precursor to TICAD 7, which is being held in Yokohama between 28-30 August. TICAD 7 sees an increased involvement from the private sector, and is the first TICAD at which the private sector is a formal participant.

Meghraj Capital continues to actively engage with Japanese and Kenyan companies with a view to increasing Japanese corporate investment into Kenya, and highlight the benefits which Kenya-Japan partnerships can bring.

Meghraj Capital (meghraj.com/meghraj-capital) is an investment banking advisory business, advising clients on mergers and acquisitions, partnerships and joint ventures, and equity and debt raising. It operates from offices in Kenya, Japan, India, UK and Dubai.

The Tokyo International Conference on Africa Development ("TICAD"), is a Japanese Government-sponsored event focused on Japanese aid and investment into Africa. The seventh edition, TICAD 7, will be held in Yokohama, Japan 28-30 August 2019.
