

Meghraj Capital's Infrastructure Consulting Team  
 Updated the  
 Nationally Determined Contributions (NDC) of Kenya  
 Approved by His Excellency President Uhuru Kenyatta  
 and Submitted to the  
 United Nations Framework Convention on Climate Change (UNFCCC)

January 2021

Meghraj Capital is delighted to share that the updated Nationally Determined Contributions (NDC) of Kenya has been approved by His Excellency President Uhuru Kenyatta and has been submitted to the United Nations Framework Convention on Climate Change (UNFCCC) on 28th Dec 2020. As a climate responsible country, Kenya has committed to reduce Greenhouse Gases (GHGs) emissions by 32% compared to its baseline scenario in the updated NDC. Kenya is the second African country to update its NDC.

The total cost of implementing mitigation and adaptation actions in the updated NDC is estimated at USD 62 billion. Kenya commits to mobilise domestic resources to meet 13% of this budget, while 87% of the budget will be subject to international support.

Meghraj Capital, along with ClimateCare and NIRAS International Consulting, was commissioned by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, Kenya and Ministry of Environment and Forestry (MoEF) Kenya to update the NDC of Kenya. The work was completed over 10 months, despite the challenges of Covid-19 restrictions and numerous consultations which were required. Meghraj Capital thanks the MoEF, Kenya and GIZ, Kenya for providing the opportunity and support and to Climate Care and NIRAS International Consulting for the excellent support and coordination.

The details of updated NDC are provided in UNFCCC website and weblink is provided below:
